ASSESSING DIAMOND BEAUTY BY MEASURING BRILLIANCE, FIRE AND SPARKLE

GEMEX DISCLAIMER: Over a million diamonds have been tested to determine the achievable light performance. The "Comparative Light Performance Evaluation Scales", which are based on the results of the BrillianceScope® Analyzer, have been developed to help consumers more easily determine the visual differences between diamonds. Results are repeatable with an accuracy range of +/- 5%. Accuracy standards have been developed and tested by GemEx Systems Inc. This document is not a guaranty, valuation or appraisal. GemEx Systems, Inc. ("The Company") assumes no liability or responsibility for the representations made by the owner/seller of this diamond. The images and light performance grades on diamonds are viewed and analyzed electronically only and as such are not guaranteed by The Company.
